**Re: Cyprus Amax Minerals Company  
Compliance – Work Practice Plan  
Jefferson County  
0641000060**

Dear Ms. Nielsen:

This letter is to inform you that on December 11, 2023, and January 12, 2024, the Ohio EPA Southeast District Office, Division of Air Pollution Control (DAPC) received Cyprus Amax Minerals Company's site-specific Work Practice Plan and a revised Work Practice Plan respectively, as required by permit-to-install and operate (PTIO) P0134193, issued December 5, 2023, for emissions units F001 (plant roadways and parking areas) and F005 (material handling). After review, it has been determined that the Work Practice Plan has been developed in accordance with PTIO P0134193, and meets the requirements detailed in this permit.

Cyprus Amax Minerals Company shall begin using the Work Practice Plan within 30 days of receipt of this letter. As needs warrant, Cyprus Amax Minerals Company can modify the Work Practice Plan and begin using the revised Work Practice Plan once approved by the Ohio EPA.

Please feel free to contact me with any questions or concerns. I can be reached by phone at (740) 380-5233 or by email at [elizabeth.herron@epa.ohio.gov](mailto:elizabeth.herron@epa.ohio.gov).

Sincerely,

Elizabeth A. Herron  
Environmental Specialist 2  
Ohio EPA - Division of Air Pollution Control  
Southeast District Office
